VIETNAM PLASTIC INDUSTRY OVERVIEW

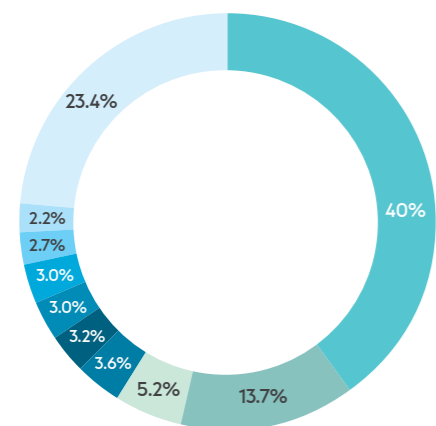

In Vietnam, there are currently more than 3,000 enterprises with over 250,000 employees working in the plastic industry, of which more than 99% are in the private sector and are primarily located in the south of Vietnam, representing more than 80% of the country's plastic enterprises. Vietnamese plastic companies mainly use Chinese technology, with 40% of the machinery, equipment, and production lines imported from China. However, in recent years, there has been a growing trend of many plastic companies investing in cutting-edge technologies from Japan, South Korea and Germany to enhance productivity.

Vietnam Exports of Plastic Products

In 2022, the output of the Plastic industry reached 9.54 million tons, up 1.9%. Export turnover of plastic products in Vietnam reached 5.447 billion USD. Total revenue was about \$25.18 billion, up 5.68% over the same period.

Vietnam's plastic products are exported to nearly 160 markets around the world, including the United States, the European Union, and Japan, which require high-quality goods with strict technological criteria. The US is the largest market for Vietnam's exported plastic products, Japan and South Korea are the second and third largest plastic export markets of Vietnam respectively.
